WAYLAIED AND ROBBED

William Nelson Assaulted and Terribly Beaten.

IN THE OLD BRICK YARD

Attacked in a Lonely Spot he Was Felled to the Earth, But His Cries Scared His Assaulters—They Helped Themselves to What He Had.

Saturday night the old Surls brickyard, fronting on Minerva street and in the vicinity of Wucherer addition, was the scene of a cowardly, murderous assault and highway robbery, the perpetrators of which, if caught, should be given the most extreme sentence and the most severe punishment that the law allows.

The victim of the outrage is William Nelson, a saggermaker employed at the Buckeye pottery, and a resident of Cadmus street. Nelson was returning home about 20 minutes after 10 o'clock, choosing the path through the brickyard as the nearest route, and he proceeded but half way when he saw two men standing, one on each side of the path. It was afterward developed that there were two more persons with the first named, whose forms could not be distinguished in the darkness. Nelson did not suspect that the men had any evil intention in their minds, and walked by them. He had gotten but a few paces when he was felled to the ground by a terrible blow. He had been struck on the head by a blunt instrument, and sank to the earth with a groan. Realizing the danger he was in, Nelson cried aloud for help, whereupon his cowardly assailants beat him over the head, and choked the prostrate man into insensibility. His cries, however, were heard by Jacob Hart, who lives at the home of Richard Rue, but a short distance away from the scene of the crime, and he hurried to the place. He arrived in time to see the dim outline of the forms of the rapidly receding highwaymen, who had fled upon hearing approaching footsteps. Nelson was partially restored to consciousness, but, in the darkness, the extent of his injuries could not be seen. Telling Hart that he did not need any assistance, Nelson started up the hill, but when almost home, he fell to the ground, suffering from the effects of his ill usage, and lay there in an unconscious state until picked up and conveyed to his home by a friend, who happened along.

When viewed in the light Nelson indeed was a pitiable sight to behold. He was covered from head to foot with blood, and his clothing was torn and bedraggled. On his head were five gashes, and the right eye was terribly swollen as the result of a sharp blow. The limbs and body also were badly bruised. A physician was hurriedly summoned, and making an examination, found that the unfortunate man was in a bad state. The skull was not fractured, nor were there any internal injuries, but a large bruise in the vicinity of the temple aroused grave fears in the doctor's mind, who said should any complications set in, the result would be fatal. However, with good care, it is thought that Nelson will recover.

When Nelson was knocked down his pockets were rifled, and their contents, \$13.85, some papers, a key and a knife were taken. A few minutes before the assault had taken place, a number of people passed the spot where the outrage was committed, and they saw several men standing there. They were undoubtedly, the lawless persons who assaulted Nelson when he came along single handed. The flight of the highwaymen was also witnessed by several other persons who were returning home.

All through the night Nelson was delirious, and required the combined efforts of three men to hold him down in bed. Sunday morning at 8 o'clock he became himself again, but was unable to give anything but a vague description of his assailants. In past years the brickyard has been a favorite spot for tramps and dangerous characters, who would not hesitate to do one bodily injury in order that the robbery might be accomplished. A number of holdups are also reported to have taken place here, the spot being isolated and not much frequented at night, unusual advantages for the performance of evil deeds existing. An electric light should be placed on Gaston hill which would illuminate the whole surroundings, thus preventing any evil disposed persons concealing themselves.

TWO ROBBERIES.

Thieves Made Good Hauls at Two Business Houses.

Thieves robbed the hardware store of Andrew Watson and the tailoring es-

tablishment of A. E. Czech on Saturday night. At the former they gained entrance through the cellar, and helped themselves to \$30 in revolvers and razors. The back door was forced at the other place, and three suits of clothing were stolen. The robberies, it is thought, were committed by the men who held up Nelson.

A LIQUOR DEALER

Sues for the Balance on a Salineville Woman's Bill.

LISBON, June 29.—[Special.]—George F. Fleming, of the wholesale liquor house of Joseph Fleming & Son, of Pittsburg, today sued Ellen Dugan, of Salineville, for \$390, balance due on an account.

The matter of probating the will of Marion Duncan, of Wellsville, was continued indefinitely.

Marriage licenses were today issued to J. M. Johnson and Lulu Greg, Thomas A. Gibbs and Lottie Wallin, John Carlisle and Lucy Smith. Carlisle is the janitor at the court house, and is well known in all parts of the county.

THE YOUNG MAN PAID.

He Settled a Case of Assault With an Attorney.

A well-known young man of the city succeeded in getting himself out of a serious difficulty the other day by settling with an attorney. He assaulted a young woman, and would probably have accomplished his purpose, but she fought like a demon and called for help. He was summoned to the office of an attorney, and settled the matter by the payment of \$100. As he was leaving the place he asked the young woman to say the assault was unsuccessful, and she replied: "You are right, for if you had succeeded I would have driven a knife through your heart."

CONTINUED THE CASES.

Because Judge Blandin Wants to go to Chicago.

The damage cases against the street railway company, caused by the accident at the Horn switch, as well as the one of the county commissioners against the corporation, set for this term of court, will in all probability be continued, as Judge Blandin, the attorney for the street railway, is a red hot Democrat and is a delegate to the Chicago convention to be held next week. This will necessitate his absence, and for that reason the cases will be continued until the next term of court.

WILL VOTE FOR M'KINLEY.

Many Democratic Wool Growers Have Flopped.

An East Liverpool man, who is in position to know what he is talking about, is responsible for the statement that many wool growers in the country opposite the city, who have always been Democrats, will vote the Republican ticket this fall. They are selling unwashed wool for 9 cents a pound, and can get no higher price. They all say they are weary of Democratic times, and are now convinced that Cleveland is a false prophet. Some of these men have been life-long Democrats.

VIEWED THE DAMAGE.

Pittsburg Men See the Results of an Accident.

The Little Dick went up the river this morning, having on board a number of prominent coal and river men who had been viewing the results of the accident at Brown's island, near Steubenville. The Acorn sunk a coalboat, and the Joseph Williams did likewise. The Frank Gilmore followed by sinking three barges and one boat and grounding a boat. The Ailes came on the wreckage, and, to save its fleet, ran them aground at the head of the island. The accident is another argument for dams.

The Thomas Company Have Beautified Water Plugs.

The Thomas Pottery company have painted all the fire plugs in the vicinity of their works white, and trimmed them in black. The plugs are now clearly discernable on the darkest night, besides presenting a handsome appearance in the daylight. It would not be a bad idea for the city to follow the example and paint all the plugs, as they would be so much easier to find at night in case of a fire to amply repay the cost of the improvement.

KILLED IN A WRECK.

A Young Man Well Known Here Meets Death Near Chicago.

S. C. Whittenberger this morning received a letter conveying the sad intelligence that his brother-in-law, Andrew Dunnegan, a young man aged 22 years, had been killed in a railroad wreck near Chicago on June 25. Mr. Dunnegan was well known here, having visited in the city on several occasions. He made many friends who will be pained to hear of his death.

NO CARDS IN SIGHT

But Chief Johnson Thought it Was a Gambling Den.

CHARLES GALLAGHER IS IN JAIL

He Was Taken as the Proprietor of the Place, and Will Stand Trial—The Visitors Were Allowed to Go, But Will Be Needed at the Hearing.

The officers of the law swooped down upon a gambling den at an early hour Sunday morning, placing the proprietor under arrest and taking the names of the inmates of the house, who will have to appear and prove that they were not engaged in a lawless practice before they will be released.

The scene of the raid was in the upper story of a dilapidated frame building on lower Broadway, adjoining the house that was pulled about two weeks since for being a place of the same character. There certainly must be something in the atmosphere in this vicinity that is peculiarly conducive to the alluring game of draw, that this spot should be chosen as a favorite retreat for those who indulge in it. Chief Johnson is determined that an amusement of this character shall not thrive, and accordingly he, accompanied by several others of the force, a little past midnight cautiously made their way to the place where they suspected a violation of the law. The house was surrounded, and at a preconcerted signal an entrance was effected from several different places. Charles Gallagher, the proprietor, was arrested and taken to jail. The other persons present were let go, as they are known and can be found when wanted. When the officers came upon the party no cards could be seen, and Gallagher stoutly denied that he was guilty, and declared that he would stand trial. He is still behind the bars, and the date of his hearing has not been set.

William Smith is the name of an individual arrested Saturday night by Officer Earl. He was so intoxicated that he could not walk, and upon being arraigned by the mayor was fined \$2 and costs. In default of the amount, Smith, who is a riverman, is still incarcerated.

NO MEETING TOMORROW.

Council May Postpone as Judge Smith Is in Youngstown.

From the outlook at present it is probable that, unless the members insist, there will be no meeting of council tomorrow night, but that it will be deferred for one week. The reason for postponement is that Judge Smith is very desirous of being present when the meeting is held, but cannot get away tomorrow night, as he is holding court in Youngstown. When the meeting is called next week it is probable that it will be for the transaction of general business, as several matters should be attended to, the most important one being the adoption of plans for fixing the culvert on Eighth street, which was washed out by the recent heavy rains.

SCHIVEREA STILL LIVES.

He Did Not Drop Dead as Was Reported Last Week.

A letter received by Capt. C. T. Young this morning from Evangelist Schivera, of Ozone Park, Long Island, states that he is not dead as rumored, but is well and hearty, which news will be received with great joy by scores of his friends in this community, and especially by those who under his influence were brought from darkness into the light and liberty of the gospel, and are living a new life in Christ Jesus. But to those who have endeavored to cast a reproach upon his name and character and who reported him dead, saying that he fell down on a pool table, the above will be gall and wormwood.—Toronto Tribune.

FIRED TWO KILNS.

The Pottery at Rogers Is at Last Well Started.

A stockholder of the new pottery at Rogers was in the city today, and stated that they had fired their first two kilns last week, and expected to fire another the latter part of this week. The quality of the ware is of the finest, and the company have all the orders they can handle, although the plant is not yet thoroughly started. The people are well pleased with their venture. The plant will not be shut down for the Fourth, as they are too busy. A number of Liverpool workmen have secured employment at the factory.

WANTS IT MANUFACTURED.

A Chicago Man Thinks He Has a Good Thing.

A. H. Snapp, a Chicago man who is as energetic as his name implies, was in town Saturday with a patent fern dish.

It is so made that the plant has just enough air and water to keep it in a thrifty condition. Mr. Snapp wanted it made of the finest of ware and decorated in the best possible manner, and came here for that purpose. He could not make definite arrangements with any of the plants visited, and left for Baltimore, where he will try the Bennett company.

DREW HIS REVOLVER.

J. H. White Wanted to Shoot "Poker" Anderson.

A stranger, giving his name as J. H. White, drew a revolver on "Poker" Anderson in the White House saloon this afternoon. He was prevented from using the gun by bystanders who caught his hand. He was arrested by Officer Meador and taken to the city jail where a charge of carrying concealed weapons was entered. The prisoner will probably be arraigned this evening.

TWO ACCIDENTS.

William Bettridge and Thomas Collins Were Hurt Today.

Will Bettridge, an employee of the Union planing mill, had a large gash cut in his hand while working a machine this afternoon. The wound was stitched up by a physician.

Thomas Collins, a kilnhand employed at the Union pottery, while at work, this morning fell a distance of 10 feet off the steps. His left arm was badly bruised, but fortunately no bones were broken.

Twenty-fifth Anniversary.

The twenty-fifth anniversary of the ordination of Father Smythe, of St. Aloysius' church, will be observed next Sunday. Solemn high mass will be preached in the morning and solemn vespers in the evening by Father Ferrell, of Cleveland. A special musical program has been prepared. On Tuesday Father Smythe will serve a dinner to a number of priests from surrounding cities.

A Good Place.

Almost every evening a number of towboats tie up on the West Virginia side of the river near Walker's, some of them stopping as early as 4 o'clock. The reason for this was given to a reporter by a riverman, who stated that this point was the best place between Pittsburg and Wheeling to tie up, and that a boat would rather lose a few hours than pass it by in the evening on a down trip.

A Strange Fatality.

On last Friday Martin Koch, of East Palestine, dropped dead, and the funeral took place yesterday afternoon. While the body was being lowered into the grave, Isaac Cross, an old neighbor of Koch, fell, and came near pitching into the grave. He never breathed after he struck the ground, and his death is supposed to have resulted from heart trouble.

A Masterly Effort.

Rev. J. M. Robinson, of St. John's Presbyterian church, Moncton, N. B., occupied the pulpit of the First Methodist Episcopal church last night, and made a masterly address which was listened to with intense interest by the congregation. The reverend gentleman will remain in the city a few days, the guest of W. V. Blake, Cadmus street.

More Township Money.

The expenditures of the township trustees for the month ending June 27 are as follows: Received from the county \$34.25; from the township, \$118.32. Last month, before the infirmity directors issued orders to either send the people receiving aid to the infirmary or cut from the list, it showed \$93.38 from the county and \$23.06 from the township.

Some Pottery News.

Cartwright Pottery will shut down the pottery Friday for two weeks, while the plant is undergoing repairs. The work of tearing out the boiler at Sebring's was commenced Friday night, and will be rushed day and night until the new one is in place.

Goodwin's pottery will resume operations, Monday, July 6.

Social Notes.

A private picnic will be held at Columbian park on Wednesday.

The dance given at Bradshaw hall on Saturday night was well attended and was a very enjoyable one.

The Moonlight Social club will hold a reception at Bradshaw hall tomorrow evening.

Downfall of Ice.

The cake of ice containing McKinley's picture, which was on exhibition in Chal Peterson's window, Saturday, fell early yesterday morning, and broke a large hole in the plate glass.

ONE WOULD REPUDIATE

A Member of the Board Has a Word on the Debt.

A LIVELY MEETING IS EXPECTED

Something Must Be Done Tonight, and Members Are Thinking Hard Today—It May Find Its Way Into Court Before Long.

That debt which the old school board contracted, and which was the cause of a special election a few weeks ago, has come to the surface in a lively manner, and promises to be the subject of some discussion at the meeting tonight.

Two notes, each amounting to \$3,250, are due, and something must be done. A leading member of the board, in speaking of the troublesome matter, said: "The debt ought to be repudiated. The old board was never authorized to contract it, and the result of the election shows that the people do not want it paid. When the banks advanced the money they knew the transaction was illegal, but realized the funds were needed, and trusted to the people for payment. If the case finds its way to the courts I believe the decision would be in favor of the present board who did all in their power by asking the people to vote on the question of bonds. No matter how the court decides, it will vindicate the present board. If it says that the debt should be paid we can show that, thinking on the same line, we have submitted it to the people, and they decided against it. The vote of a few weeks ago says that the people themselves repudiated the debt, and we are nothing but servants of the people and must do their will. Therefore I can't see that the board should do anything more with the matter."

The notes are signed by the president and secretary of the board, and endorsed by the city treasurer. On the face of each bit of paper the announcement is made that it was created by resolution of the board. A prominent banker, in speaking of the tangle, said that the board should be careful about going into court as they had already put in bank notes of a similar character although two members had voted against it. At best a lively time is promised at the meeting tonight for the question is one of interest, and involves no small amount of money.

Attached His Wages.

Constable Bertele attached the wages of Samuel Carter, an employee of Mountford's pottery, at noon today, to satisfy a claim of \$21.46 due on a board bill owed Mrs. John Stoffell. Action was commenced in Squire Morley's court.

SCHIVEREA STILL LIVES.

He Did Not Drop Dead as Was Reported Last Week.

A letter received by Evangelist Schivera, Ozone Park, Long Island, states that he is not dead as rumored, but is well and hearty, which news will be received with great joy by scores of his friends in this community, and especially by those who under his influence were brought from darkness into the light and liberty of the gospel, and are living a new life in Christ Jesus. But to those who have endeavored to cast a reproach upon his name and character and who reported him dead, saying that he fell dead on a pool table, the above will be gall and wormwood.—Toronto Tribune.

FIRE TWO KILNS.

The Pottery at Rogers Is at Last Well Started.

A stockholder of the new pottery at Rogers was in the city today, and stated that they had fired their first two kilns last week, and expected to fire another the latter part of this week. The quality of the ware is of the finest, and the company have all the orders they can handle, although the plant is not yet thoroughly started. The people are well pleased with their venture. The plant will not be shut down for the Fourth, as they are too busy. A number of Liverpool workmen have secured employment at the factory.

WANTS IT MANUFACTURED.

A Chicago Man Thinks He Has a Good Thing.

A. H. Snapp, a Chicago man who is as energetic as his name implies, was in town Saturday with a patent fern dish.

It is so made that the plant has just enough air and water to keep it in a thrifty condition. Mr. Snapp wanted it made of the finest of ware and decorated in the best possible manner, and came here for that purpose. He could not make definite arrangements with any of the plants visited, and left for Baltimore, where he will try the Bennett company.

DREW HIS REVOLVER.

J. H. White Wanted to Shoot "Poker" Anderson.

A stranger, giving his name as J. H. White, drew a revolver on "Poker" Anderson in the White House saloon this afternoon. He was prevented from using the gun by bystanders who caught his hand. He was arrested by Officer Meanor and taken to the city jail where a charge of carrying concealed weapons was entered. The prisoner will probably be arraigned this evening.

TWO ACCIDENTS.

William Bettridge and Thomas Collins Were Hurt Today.

Will Bettridge, an employee of the Union planing mill, had a large gash cut in his hand while working a machine this afternoon. The wound was stitched up by a physician.

Thomas Collins, a kilnhand employed at the Union pottery, while at work, this morning fell a distance of 10 feet off the steps. His left arm was badly bruised, but fortunately no bones were broken.

Twenty-fifth Anniversary.

The twenty-fifth anniversary of the ordination of Father Smythe, of St. Aloysius' church, will be observed next Sunday. Solemn high mass will be preached in the morning and solemn vespers in the evening by Father Ferrell, of Cleveland. A special musical program has been prepared. On Tuesday Father Smythe will serve a dinner to a number of priests from surrounding cities.

A Good Place.

Almost every evening a number of towboats tie up on the West Virginia side of the river near Walker's, some of them stopping as early as 4 o'clock. The reason for this was given to a reporter by a riverman, who stated that this point was the best place between Pittsburg and Wheeling to tieup, and that a boat would rather lose a few hours than pass it by in the evening on a down trip.

A Strange Fatality.

On last Friday Martin Koch, of East Palestine, dropped dead, and the funeral took place yesterday afternoon. While the body was being lowered into the grave, Isaac Cress, an old neighbor of Koch, fell, and came near pitching into the grave. He never breathed after he struck the ground, and his death is supposed to have resulted from heart trouble.

A Masterly Effort.

Rev. J. M. Robinson, of St. John's Presbyterian church, Moncton, N. B., occupied the pulpit of the First Methodist Episcopal church last night, and made a masterly address which was listened to with intense interest by the congregation. The reverend gentleman will remain in the city a few days, the guest of W. V. Blake, Cadmus street.

More Township Money.

The expenditures of the township trustees for the month ending June 27 are as follows: Received from the county \$34.25; from the township, \$118.32. Last month, before the infirmity directors issued orders to either send the people receiving aid to the infirmary or cut from the list, it showed \$93.38 from the county and \$23.06 for the township.

Some Pottery News.

Cartwright Brothers will shut down the pottery Friday for two weeks, while the plant is undergoing repairs.

The work of tearing out the boiler at Sebring's was commenced Friday night, and will be rushed day and night until the new one is in place.

Goodwin's pottery will resume operations, Monday, July 6.

Social Notes.

A private picnic will be held at Columbian park on Wednesday.

The dance given at Bradshaw hall on Saturday night was well attended and was a very enjoyable one.

The Moonlight Social club will hold a reception at Bradshaw hall tomorrow evening.

Downfall of Ice.

The cake of ice containing McKinley's picture, which was on exhibition in Chal Peterson's window, Saturday, fell early yesterday morning, and broke a large hole in the plate glass.

ONE WOULD REPUDIATE

A Member of the Board Has a Word on the Debt.

A LIVELY MEETING IS EXPECTED

Something Must Be Done Tonight, and Members Are Thinking Hard Today—It May Find Its Way Into Court Before Long.

That debt which the old school board contracted, and which was the cause of a special election a few weeks ago, has come to the surface in a lively manner, and promises to be the subject of some discussion at the meeting tonight.

Two notes, each amounting to \$3,250, are due, and something must be done. A leading member of the board, in speaking of the troublesome matter, said: "The debt ought to be repudiated. The old board was never authorized to contract it, and the result of the election shows that the people do not want it paid. When the banks advanced the money they knew the transaction was illegal, but realized the funds were needed, and trusted to the people for payment. If the case finds its way to the courts I believe the decision would be in favor of the present board who did all in their power by asking the people to vote on the question of bonds. No matter how the court decides it will vindicate the present board. If it says that the debt should be paid we can show that, thinking on the same line, we have submitted it to the people, and they decided against it. The vote of a few weeks ago says that the people themselves repudiated the debt, and we are nothing but servants of the people and must do their will. Therefore I can't see that the board should do anything more with the matter."

The notes are signed by the president and secretary of the board, and endorsed by the city treasurer. On the face of each bit of paper the announcement is made that it was created by resolution of the board. A prominent banker, in speaking of the tangle, said that the board should be careful about going into court as they had already put in bank notes of a similar character although two members had voted against it. At best a lively time is promised at the meeting tonight for the question is one of interest, and involves no small amount of money.

Attached His Wages.

Constable Bertele attached the wages of Samuel Carter, an employee of Mountford's pottery, at noon today, to satisfy a claim of \$21.46 due on a board bill owed Mrs. John Stoffell. Action was commenced in Squire Morley's court.

It seems that the debt left by the old school board is destined to cause more discussion before it is paid.

THOUSANDS of those who advocate the cause of silver know next to nothing of the great financial problem. It requires brains and study to master that question.

STOP IT.

The attention of the humane society is called to the practice of carrying children on the handle bars of bicycles. It has grown to an alarming extent, and the time has come to end it by the enforcement of such power as the authorities possess. Little ones, who know nothing of the danger in which they are placed, and have no will to protest, even though they realize their perilous position, are often whirled through the streets at a dangerous speed. Should an accident happen, and the wheelman is ever in danger, in spite of every precaution, it is the innocent little one who suffers. The practice is a senseless one, and there is no excuse for its existence. It has been stopped in the larger cities, and there is no reason why it should be continued in East Liverpool. As yet no lives have been lost, but that is no reason why the authorities should wait. Some shocking accident may occur, a tragedy be added to the annals of the city, and then action will be taken. Prevent it by stopping the practice.

MAKE IT A ROUSER.

While Mark Hanna has had no opportunity to make known any plans he may have formed for the coming campaign, there are reasons for believing that he will make it one long to be remembered. Mr. Hanna is an enthusiast in the cause of Major McKinley. He believes in the great protectionist, and will do anything that is honest and honorable to advance his cause. Being a keen observer and a smart man, he knows that the people want a rousing campaign filled with red fire and abundant noise. For several years the country has been gloomy and sad, wages were low and prospects were poor. Now the light is beginning to shine. In the distance can be seen a return of the Republican party to power. Better times are in store for the nation, and business will boom with the new order. The people are ready to welcome it, and they want to begin as soon as possible. They can find no better way than to make it warm for their political opponents during the campaign, and there is no improvement in this line on the old fashioned turn outs of a decade or two ago—big parades and big meetings with abundant enthusiasm and noise. In advocating this sort of demonstration Mr. Hanna is doing much for the party, and more for William McKinley.

NEW RULER FOR CRETE.

Turkey Appoints a Christian to Succeed a Mussulman.

CONSTANTINOPLE, June 29.—Georgi Berovitch, prince of Samos, has been appointed governor of Crete in succession to the Mussulman governor, Pasha. The island of Samos is autonomous, although it pays a tribute to the Turkish government, and Prince Georgi Berovitch is a Christian.

The recall of the former Christian governor of Crete, Carathodory Pasha, and the appointment in his stead of the Mussulman, Abdullah Pasha, who was implicated in the Armenian troubles, fanned into flame the smoldering discontent of the Cretan Christians and resulted in the disorder which has prevailed for several months in the island. The appointment of the Prince of Samos seems designed to conciliate Greece, which has manifested overt sympathy with the discontent of the Cretans under Turkish rule.

DIAZ'S SAME OLD BLUFF.

He Will Have Himself Re-Elected President Again.

CITY OF MEXICO, June 29.—Primaries have been held throughout the country,

PRESIDENT DIAZ.

which show beyond doubt that President Diaz will be triumphantly re-elected.

The election, however, is a mere farce, as no one dares run against Diaz, who is an absolute despot, ruling with an iron hand. Nevertheless, he is progressive, and it is a good thing for the country that he plays the part he does.

COALBOATS WRECKED.

The Pittsburg Fleet Meets With Disaster Near Steubenville.

WHEELING, June 29.—The Pittsburg coal fleet met with disaster at Brown's island, just above Steubenville. Saturday night the Acorn sunk a coalboat in the channel and the Volunteer sunk a barge on the bar. The Joseph H. Williams sank a coalboat Sunday morning, the Frank Gilmore sank three barges and one coalboat and grounded another boat.

The John W. Ailes to prevent wrecking her fleet grounded it at the head of the island. In trying to pass down with a coalboat it was grounded by the Ailes. The Tornado has torn out the boat sunk by the Acorn.

100 MINERS KILLED.

The Roof of a Mine Caved In at Pittston, Pa.

ONLY THREE MEN ESCAPE DEATH.

Foundations of Many Buildings Shaken and Windows Rattled—People Thrown From Their Beds—Sad Scenes Around the Mouth of the Shaft.

WILKESBARRE, Pa., June 29.—While 100 miners were at work in the Red Ash vein of the Twin shaft at Pittston the roof caved in, and it is believed, that all of the men perished. About 40 of the imprisoned men were English-speaking miners, the others foreigners. The names of the former are:

M. J. Langan, inside superintendent; J. H. Linnott, inside foreman; Alex. McCormick, fire boss; Robert Has-ton, machinist; Thomas Murphy, driver boss. The following miners: Michael Costello, J. H. Kelly, Michael Gaudhan, John Hart, James Dailey, Michael Connell, Daniel Ward, Frank Kehoe, James Cleary, Edward Buckley, John Casey, Edward Rogers, Jas. Kehoe, James McDonald, Edward Delaney, Cornelius McGuire, James Golden, M. O'Brien, Michael Hughes, Edward Kilday, James Burke, Patrick Ruane, Thos. Tenpenny, Michael Gaffney, Thos. Doing, Anthony Kane, J. W. Murphy, Owen Lee, Anthony Gordon, James Wall, ——— Wall, his son; Dominick O'Malley, Peter Martin, Michael Ford, Timothy Durbrick, Thomas Dempsey, Thomas Carlin, Patrick Gibbons, John O'Boys, Peter Joyce, Anthony Gordon, married; John Gill, single; John Gaffney, single; John Gavin, single; P. S. Kelley, single, 35 years old; ——— Holstrich, married; Jos. Zurindo, married; Tony Tollaski, married; Peter Savoskiz, married; Andrew Slovinski, married; Simon Maskovitz, married; John Cadanzky, single.

Aside from these, there may be other English speaking miners among the unfortunates. Thirty Poles and Huns were entombed, and it is thought that the total number of bodies in the mine will reach 100.

The men were at work propping up the roof when the fall occurred. The alarm was immediately given by the ringing of the fire bells, and rescuers were sent to work without delay.

More than two-thirds of the victims were married men and leave families. Among them were Acting Mayor Langan, who was inside superintendent of the mine, and J. H. Lynott, a ward councilman.

About two weeks ago the surveyors reported to General Superintendent Law that the mine was "squeezing" and that unless steps were immediately taken to timber it a cave-in or fall might be looked for. Superintendent Law lost no time, but at once put a number of timbermen at work to brace the falling roof. The "squeeze" continued, however, and the situation became alarming, and a big crowd of experienced men were put to work.

The men retreated before several falls until the final fatal fall came.

It is supposed, however, that the men were not all together, but some near the slope, and those probably ran up the decline when the fall occurred. The falling rocks and coal filled up the slope and the adjoining gangways, completely shutting off all avenues of escape.

It is still possible, however, that living men may still be behind the fall, although it is extremely improbable. Even if they escaped being crushed by the falling roof, the possibility of their being alive for any length of time in a gaseous mine is remote.

The alarm was first given by Water-carrier John Sheridan, who, with William Richard and Thomas Gill, were the only ones to escape of the whole party who entered the mine. He was on his way up the slope to get some fresh water for the men, and when about 100 feet from the foot of the shaft, was knocked down by the concussion. He was badly cut and burned by flying coal and rock. He lay unconscious for ten minutes and then came up the shaft.

Sheridan thinks there was an explosion of gas which blew down the newly erected timbers and caused the cave-in. When he left the mine to go out the slope and get water, those inside had no apprehension of a fall or a "squeeze." Everything was working nicely, and the men expected to be out of the mine within a few hours.

The concussion was so great that it was heard for miles around. The foundations of nearly every building in Pittston were shaken, and windows and doors rattled as in a tornado. In the houses nearer to the mine persons were thrown from their beds.

The first thought was that a great earthquake had occurred and the inhabitants rushed pell mell from their houses. The ringing of the fire bells and the shrieking of the big mine whistle told the story.

Fully 7,000 people crowded around

the mine shaft. Frantic women and girls who had husbands and fathers in the mine knelt on the ground and prayed, and others screamed and fainted. Rescuers to the number of 120 went to work.

All hope of finding any person alive has been abandoned. Superintendent Lathrop of the Lehigh Valley Coal company, who is an authority, says it will be ten days before the bodies are reached.

Another fall in the slope has occurred which drove the rescuers back. The 20 feet of ground they had gained was thereby lost.

SAYS IT MEANS A SPLIT.

Whitney Gives Up Hope of Defeating the Silver Men.

NEW YORK, June 29.—William C. Whitney, in an interview, acknowledges that he has about given up hope of stemming the silver tide at Chicago. He says that the gold men will not compromise, but that they will do everything they can "to save the party and protect the country."

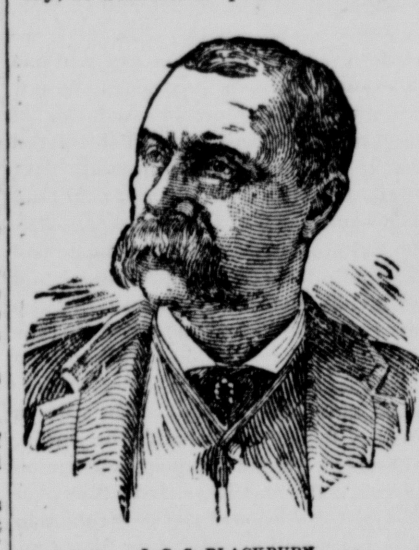

A reporter asked: "If a free coinage candidate is nominated on a free coinage platform, what will be the result?"

"Practically it will disrupt the Democratic party. No power on earth can coerce or persuade sound money Democrats to forsake the fundamental principle of Democracy. They do not regard this question as either factional, sectional or political. The maintenance of the national credit is a matter of national honor. The Saratoga platform emphasizes this fact."

The Attorney General Instructs Food Commissioner McNeal.

COLUMBUS, June 29.—Attorney General Monnett has rendered an opinion in answer to a letter from Food and Dairy Commissioner McNeal, asking for an official opinion upon the construction of the act regulating the manufacture and sale of lard oil, and particularly inquiring whether section 4 of the act charges his department and the grand juries of the state separately and independently to enforce the provisions of the act. Dr. McNeal also asks: "Should prosecutions brought by the dairy and food commission to enforce the provisions of this act be brought before magistrates under section 3718a as other prosecutions by this department, or must our complaint be made before a grand jury?"

The attorney general says: "Section 4 of the act reads: 'It is hereby made the duty of the food and dairy commissioner of the state to see that the provisions of this act are enforced, and grand juries are instructed to take cognizance of cases the same as where crimes are charged.'"

"It is my opinion that this does not abridge your powers and rights to proceed under 3718a for violations of this act, as other prosecutions by your department. In addition to that, you may also appear before a grand jury and prosecute by indictment. Independent of your action, I suppose grand juries could investigate."

It seems that the debt left by the old school board is destined to cause more discussion before it is paid.

THOUSANDS of those who advocate the cause of silver know next to nothing of the great financial problem. It requires brains and study to master that question.

STOP IT.
The attention of the humane society is called to the practice of carrying children on the handle bars of bicycles. It has grown to an alarming extent, and the time has come to end it by the enforcement of such power as the authorities possess. Little ones, who know nothing of the danger in which they are placed, and have no will to protest, even though they realize their perilous position, are often whirled through the streets at a dangerous speed. Should an accident happen, and the wheelman is ever in danger, in spite of every precaution, it is the innocent little one who suffers. The practice is a senseless one, and there is no excuse for its existence. It has been stopped in the larger cities, and there is no reason why it should be continued in East Liverpool. As yet no lives have been lost, but that is no reason why the authorities should wait. Some shocking accident may occur, a tragedy to be added to the annals of the city, and then action will be taken. Prevent it by stopping the practice.

MAKE IT A ROUSER.
While Mark Hanna has had no opportunity to make known any plans he may have formed for the coming campaign, there are reasons for believing that he will make it one long to be remembered. Mr. Hanna is an enthusiast in the cause of the great protectionist, and will do anything that is honest and honorable to advance his cause. Being a keen observer and a smart man, he knows that the people want a rousing campaign filled with red fire and abundant noise. For several years the country has been gloomy and sad, wages were low and prospects were poor. Now the light is beginning to shine. In the distance can be seen a return of the Republican party to power. Better times are in store for the nation, and business will boom with the new order. The people are ready to welcome it, and they want to begin as soon as possible. They can find no better way than to make it warm for their political opponents during the campaign, and there is no improvement in this line on the old fashioned turn outs of a decade or two ago—big parades and big meetings with abundant enthusiasm and noise. In advocating this sort of demonstration Mr. Hanna is doing much for the party, and more for William McKinley.

NEW RULER FOR CRETE.

Turkey Appoints a Christian to Succeed a Musselman.

CONSTANTINOPLE, June 29.—Georgi Berovitch, prince of Samos, has been appointed governor of Crete in succession to the Musselman governor, Pasha. The island of Samos is autonomous, although it pays a tribute to the Turkish government, and Prince Georgi Berovitch is a Christian.

The recall of the former Christian governor of Crete, Carathodory Pasha, and the appointment in his stead of the Musselman, Abdullah Pasha, who was implicated in the Armenian troubles, fanned into flame the smoldering discontent of the Cretan Christians and resulted in the disorder which has prevailed for several months in the island. The appointment of the Prince of Samos seems designed to conciliate Greece, which has manifested overt sympathy with the discontent of the Cretans under Turkish rule.

DIAZ'S SAME OLD BLUFF.

He Will Have Himself Re-Elected President Again.

CITY OF MEXICO, June 29.—Primaries have been held throughout the country,

PRESIDENT DIAZ.

which show beyond doubt that President Diaz will be triumphantly re-elected.

The election, however, is a mere farce, as no one dares run against Diaz, who is an absolute despot, ruling with an iron hand. Nevertheless, he is progressive, and it is a good thing for the country that he plays the part he does.

COALBOATS WRECKED.

The Pittsburgh Fleet Meets With Disaster Near Steubenville.

WHEELING, June 29.—The Pittsburgh coal fleet met with disaster at Brown's island, just above Steubenville. Saturday night the Acorn sunk a coalboat in the channel and the Volunteer sunk a barge on the bar. The Joseph H. Williams sunk a coalboat Sunday morning, the Frank Gilmore sank three barges and one coalboat and grounded another boat.

The John W. Ailes to prevent wrecking her fleet grounded it at the head of the island. In trying to pass down with a coalboat it was grounded by the Ailes. The Tornado has torn out the boat sunk by the Acorn.

100 MINERS KILLED.

The Roof of a Mine Caved In at Pittston, Pa.

ONLY THREE MEN ESCAPE DEATH.

Foundations of Many Buildings Shaken and Windows Rattled—People Thrown From Their Beds—Sad Scenes Around the Mouth of the Shaft.

WILKESBARRE, Pa., June 29.—While 100 miners were at work in the Red Ash vein of the Twin shaft at Pittston the roof caved in, and it is believed, that all of the men perished. About 40 of the imprisoned men were English-speaking miners, the others foreigners. The names of the former are:

M. J. Langan, inside superintendent; J. H. Linnott, inside foreman; Alex. McCormick, fire boss; Robert Haston, machinist; Thomas Murphy, driver boss. The following miners: Michael Costello, J. H. Kelly, Michael Gaudhan, John Hart, James Dailey, Michael Connell, Daniel Ward, Frank Kehoe, James Cleary, Edward Buckley, John Casey, Edward Rogers, Jas. Kehoe, James McDonald, Edward Delaney, Cornelius McGuire, James Golden, M. O'Brien, Michael Hughes, Edward Kilday, James Burke, Patrick Ruane, Thos. Tenpenny, Michael Gaffney, Thos. Doing, Anthony Kane, J. W. Murphy, Owen Lee, Anthony Gordon, James Wall, ——— Wall's son; Dominick O'Malley, Peter Martin, Michael Ford, Timothy Durbrick, Thomas Dempsey, Thomas Carlin, Patrick Gibbons, John O'Boye, Peter Joyce, Anthony Gordon, married; John Gill, single; John Gaffney, single; Daniel Gavin, single; P. S. Kelley, single, 35 years old; ——— Holstreich, married; Jos. Zurind, married; Tony Tollaski, married; Peter Savoskiz, married; Andrew Slovinski, married; Simon Maskovitz, married; John Cadanzky, single. Aside from these, there may be other English speaking miners among the unfortunates. Thirty Poles and Hungarians were entombed, and it is thought that the total number of bodies in the mine will reach 100.

The men were at work propping up the roof when the fall occurred. The alarm was immediately given by the ringing of the fire bells, and rescuers were put to work without delay.

More than two-thirds of the victims were married men and leave families. Among them were Acting Mayor Langan, who was inside superintendent of the mine, and J. H. Lynott, a ward councilman.

About two weeks ago the surveyors reported to General Superintendent Law that the mine was "squeezing" and that unless steps were immediately taken to timber it a cave-in or fall might be looked for. Superintendent Law lost no time, but at once put a number of timbermen at work to brace the falling roof. The "squeeze" continued, however, and the situation became alarming, and a big crowd of experienced men were put to work.

The men retreated before several falls until the final fatal fall came. It is supposed, however, that the men were not all together, but some near the slope, and these probably ran up the decline when the fall occurred. The falling rocks and coal filled up the slope and the adjoining gangways, completely shutting off all avenues of escape.

It is still possible, however, that living men may still be behind the fall, although it is extremely improbable. Even if they escaped being crushed by the falling roof, the possibility of their being alive for any length of time in a gaseous mine is remote.

The alarm was first given by Water-carrier John Sheridan, who, with William Richard and Thomas Gill, were the only ones to escape of the whole party who entered the mine. He was on his way up the slope to get some fresh water for the men, and when about 100 feet from the foot of the shaft, was knocked down by the concussion. He was badly cut and burned by flying coal and rock. He lay unconscious for ten minutes and then came up the shaft.

Sheridan thinks there was an explosion of gas which blew down the newly erected timbers and caused the cave-in. When he left the mine to go out the slope and get water, those inside had no apprehension of a fall or a "squeeze." Everything was working nicely, and the men expected to be out of the mine within a few hours.

The concussion was so great that it was heard for miles around. The foundations of nearly every building in Pittston were shaken, and windows and doors rattled as in a tornado. In the houses nearer to the mine persons were thrown from their beds.

The first thought was that a great earthquake had occurred and the inhabitants rushed pell mell from their houses. The ringing of the fire bells and the shrieking of the big mine whistle told the story.

Fully 7,000 people crowded around

the mine shaft. Frantic women and girls who had husbands and fathers in the mine knelt on the ground and prayed, and others screamed and fainted. Rescuers to the number of 120 went to work.

All hope of finding any person alive has been abandoned. Superintendent Lathrop of the Lehigh Valley Coal company, who is an authority, says it will be ten days before the bodies are reached.

Another fall in the slope has occurred which drove the rescuers back. The 20 feet of ground they had gained was thereby lost.

SAYS IT MEANS A SPLIT.

Whitney Gives Up Hope of Defeating the Silver Men.

NEW YORK, June 29.—William C. Whitney, in an interview, acknowledges that he has about given up hope of stemming the silver tide at Chicago. He says that the gold men will not compromise, but that they will do everything they can "to save the party and protect the country."

A reporter asked: "If a free coinage candidate is nominated on a free coinage platform, what will be the result?" "Practically it will disrupt the Democratic party. No power on earth can coerce or persuade sound money Democrats to forsake the fundamental principle of Democracy. They do not regard this question as either factional, sectional or political. The maintenance of the national credit is a matter of national honor. The Saratoga platform emphasizes this fact."

PURE FOOD ACT.

The Attorney General Instructs Food Commissioner McNeal.

COLUMBUS, June 29.—Attorney General Monnett has rendered an opinion in answer to a letter from Food and Dairy Commissioner McNeal, asking for an official opinion upon the construction of the act regulating the manufacture and sale of lard oil, and particularly inquiring whether section 4 of the act charges his department and the grand juries of the state separately and independently to enforce the provisions of the act. Dr. McNeal also asks: "Should prosecutions brought by the dairy and food commissions to enforce the provisions of this act be brought before magistrates under section 3718a as other prosecutions by this department, or must our complaint be made before a grand jury?"

The attorney general says: "Section 4 of the act reads: 'It is hereby made the duty of the food and dairy commissions of this state to see that the provisions of this act are enforced, and grand juries are instructed to take cognizance of cases the same as where crimes are charged.'"

"It is my opinion that this does not abridge your powers and rights to proceed under 3718a for violations of this act, as other prosecutions by your department. In addition to that, you may also appear before a grand jury and prosecute by indictment. Independent of your action, I suppose grand juries could investigate."

TO LAY SILVER'S PLAN.

A Conference to Be Held in Chicago Tomorrow.

CANDIDATES WON'T STAY DOWN.

The Managers Had Wished to Keep Them in the Background—Senator Harris Arrives to Participate—Work of the Democratic Bimetallic League.

CHICAGO, June 29.—Senator Harris has arrived here to be present at the Democratic silver conference which will be held in this city tomorrow, under the auspices of the Democratic bimetallic organization. He is chairman of this organization, and has been since it was instituted in Washington a year ago.

Speaking of the purpose of the conference, Senator Harris said it had been called in order to afford the silver Democrats an opportunity to compare views and look the ground over preparatory to the national convention, and that it would probably continue daily until the beginning of the convention. He also said that the meeting would not be confined to members of the bimetallic organization, but that there would be representatives present from every state delegation friendly to silver.

Further than this the senator declined to commit himself as to the purpose of the meeting, but it is learned from an authoritative source that the silver Democrats regard this conference as a very important affair.

The organization, under whose auspices the meeting is called, has been laboring in season and out, for the promotion of the silver cause within the Democratic ranks. They have had their headquarters at Senator Harris' house, and from that quarter have conducted a correspondence with chosen representatives in all parts of the country, to whom have been entrusted the organization of the silver forces, not only in every state, but in every county in every state in the union where it was considered possible to effect the lodgement of a silver idea.

The movement grew out of a silver idea. The movement grew out of the meeting held at the Metropolitan hotel in Washington last summer, at which the plans were prepared and an executive committee consisting of one member from each state was appointed. The work has been quietly but very thoroughly performed.

The purpose of the anti-convention meeting is to render the silver organization as to solidify it thoroughly effective in the execution of the plans of the silver leaders in the convention and to also prevent the encroachment of the gold forces. It had been their purpose to discuss the platform to be adopted and also to consider the availability of candidates. There has been much correspondence bearing upon these two points. The plan has been to keep candidates in the background until the conference could be held, with the view of having the conference free to choose. This has proved to be impracticable, and it is understood that the leaders in the movement fear that they will be unable to control in this matter, as they had at one time hoped they might do. They still hope, however, to be practically able to make the platform before the convention meets.

BOIES DEFENDS SILVER.
He Answers Questions Put to Him by a New York Paper.

NEW YORK, June 29.—Ex-Governor Boies of Iowa has made the following answers to questions from a local paper: "Do you really wish to permanently alienate from the Democratic party New York, New Jersey, Connecticut, Delaware and Maryland?"

"I have no desire, neither am I disturbed by such a fear. The interests of the masses in the states named are identical with the wishes of the masses in the west and south."

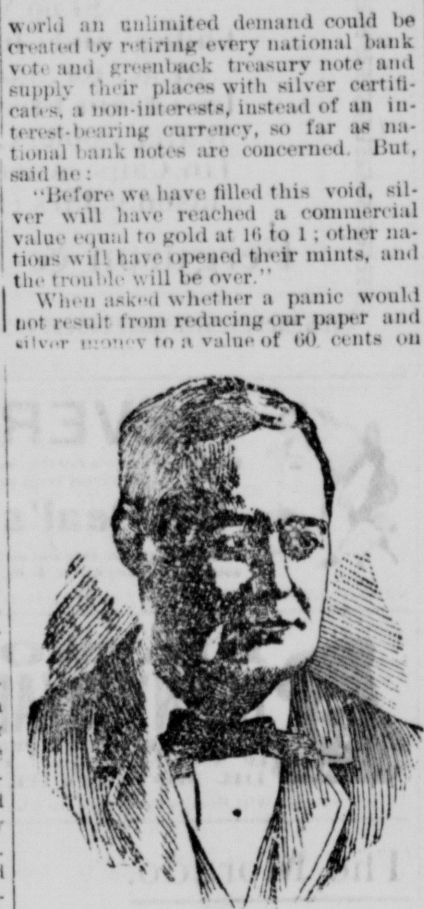

He said that the party would more than gain in the west what it lost in the east from these states: Ohio, Michigan, Indiana, Illinois, Wisconsin, Iowa, Minnesota, Kansas, Nebraska, North Dakota, South Dakota, Colorado, Utah, Idaho, Montana, Nevada, Washington, Wyoming, Oregon and California.

"Do you really believe the United States able, if free coinage were adopted, to maintain our currency a par with gold unaided by any other nation?"

"I do not profess to be able to state with absolute certainty whether it would or would not. The great mass of the friends of silver in the south and west believe it would. They reason thus: Coinage laws fix the commercial value of gold by providing an unlimited demand for it at a given price. Like laws would fix the price of silver."

He said that the silver of the world would come into competition with this country's product in the home market as more than two-thirds of the people of the world are now on a single silver basis. They must continue to have silver for their use. The gold standard countries use silver largely as token money. They cannot spare what they have or curtail their necessity for more. Also silver is extensively used in the arts.

To make room for the surplus of the

HORACE BOIES.

The dollar in gold, he said that gold, which was inflated in value by the demonization in silver, would be reduced and the commercial value of silver bullion enhanced until they would be brought together at a ratio of 16 to 1. There would thus be no excuse for a panic, unless precipitated voluntarily by the creditor class.

Said he: "If this should be done the people of this nation who do not belong to the creditor class would be fully competent to defend themselves through laws which they could easily make, and which they would be entirely justified in making, if a necessity therefor should be created."

He further said that silver was demonized by independent action of each nation, and that if it was remonetized it would be by the same way.

He did not think that establishment of free coinage in this country would retard international bimetalism. Said he:

"The effect would be the reverse, because it would give the nation in which the free coinage of both metals was established an advantage in its commercial relations with the silver countries, and would not and would not endure, and they would thus be forced into some arrangement, international or otherwise, for the free coinage of both metals."

MCKINLEY IS NOTIFIED.

The Republican Committee in Canton Today.

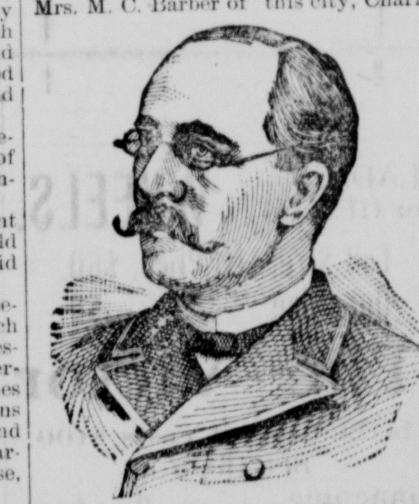

THURSTON MADE THE ADDRESS.

Governor McKinley Responded From the Front Porch of His Residence—A Simple Lunch Served—The Major Spent the Sabbath Day in the Country.

CANTON, O., June 29.—The presidential notification committee of the national Republican convention reached Canton from Cleveland on a special train at 10:30 o'clock this morning and proceeded at once to the McKinley residence, where arrangements had been made to receive the party on the front lawn. Sixty campaign chairs had been provided for their accommodation and the exercises were open to the public. Senator Thurston delivered the notification address and Governor McKinley responded from the front porch of the residence. A simple lunch was served the party under a tent in the rear of the house. About 125 distinguished were in the party, which will leave Canton for Cleveland at 4 o'clock.

A large party came here from Columbus today and several excursion parties from other cities arrived during the day and others will come this evening. Captain W. W. Miller, secretary of the Ohio state board of agriculture, is here.

Governor McKinley spent Sunday quietly. Feeling fatigued from the week's hard work he spent the day in the country at the home of Mrs. Mary G. Saxton, Mrs. McKinley's aunt, who gave a family dinner party in Mrs. McKinley's honor. Aside from the family circle there were present: General and Mrs. W. M. C. Osborne of Boston, Mr. and Mrs. M. C. Barber of this city, Charles

SENATOR THURSTON.

G. Dawes of Evanston, Ill., and Joseph P. Smith of Urbana. During the afternoon a number of Mrs. Saxton's neighbors called to pay their respects to Major and Mrs. McKinley.

THE CANTON CELEBRATION.
Over 25,000 Helped Ratify McKinley's Nomination on Saturday.

CANTON, O., June 29.—From 25,000 to 30,000 participated in the big meeting Saturday night to ratify Major McKinley's nomination, many delegations from neighboring cities and towns being present. Major McKinley spoke twice. Other speakers were: Hon. Henry W. Larter, Judge William R. Day, President H. W. Wolcott of the Tippecanoe club of Cleveland, Congressman Grosvenor, Hon. James H. Hoyt, Charles Emory Smith, ex-minister to Russia, and Congressman R. W. Taylor. The tariff question was the prevailing sentiment of the speeches and motions on the banners.

The parade was a monster affair and was reviewed by Governor McKinley. The Apollo, Pa., delegation with a coon perched on a miniature White House and under escort of the Republican club of Canton, headed by a large party that gathered before the McKinley residence, Captain Jackson, son of ex-State Treasurer Jackson of Pennsylvania, spoke for the Apollos, and Mr. Thomas Turner of this city said the coon had been caught within a few rods of Governor McKinley's farm in Columbiana county, from where it was sent to Pennsylvania. Governor McKinley made a neat speech.

Banker Keim of Louisville, headed a party of 300 from Nimschillen township with hand, banners and a flag carried in the Harris-Tyler campaign of 1840. Governor McKinley had presented this to the Republicans of Nimschillen township 28 years ago, giving it to its custodian, Captain Vignos, who held the tattered flag before him as Governor McKinley addressed the delegation.

Private Advice Come From Pittsburgh,
and They are Then Ready to Bet on the
Winning Clubs—Big Odds are Constantly
Being Offered—Sporting Notes.

The city is infested, like every other town, with a class of people who are a disgrace to all legitimate sportsmen. By this is meant the people who are found every evening around the principal sporting places, flashing their money and wanting to wager on certain baseball teams. These persons are in the habit of getting the scores before they are received by telegraph, and then they bet on a sure thing. They are known by the name of "skin game gamblers," and it is seldom that anyone who follows the national game day after day is foolish enough to wager any money after 6 o'clock in the evening; but very often people are caught willing to wager money on seemingly a sure thing when the gamblers know they have their money won before the wager is laid. As an instance, about two weeks ago, one of the weakest teams in the west was playing one of the strongest eastern clubs. But a few minutes after 6 o'clock several people were willing to bet 20 to 5 that the western club had won. This scheme is being worked extensively, and if legitimate sportsmen don't want to get caught they will keep their money in their pockets after 6 o'clock.

THE BIG GAME.

It Will be Trained Out in a Parade and Concert.

The arrangements have been completed for the ball game to be played tomorrow for the benefit of Curt Welch. Everything possible has been done by Curt's friends to make it a success, and the novelty of seeing the old timers play ball will undoubtedly draw a large crowd to West End park. The lineup is as follows:

Crockery's positions. Eclipse.

Pickel.....pitcher.....Webber
Leon Kinsey.....short.....McNicol
Ed Smith.....first.....Frey

Musical union, local No. 77, will furnish a full brass band free of charge, and a parade will be given at 2 o'clock by both teams in uniform, headed by the band. A concert will take place at the grounds. The game will be called at 3:45.

The Thompson hill club are anxious to play any 16 year old team in the city.

Carey's record in six games played last week is 4 runs, 6 hits, 60 putouts, 5 assists and no errors. Of the six hits three were two baggers and one a home run.

Mercer lost his game to Baltimore, Saturday, by hitting three men at a critical point. Aside from this he pitched good ball, allowing Baltimore but eight hits.

Jack Darrah's Wheeling team failed to hit "Johnny" Daniels hard Saturday, and as a result were beaten by New Castle.

Albright only gave the Frankforts 4 hits, and Georgetown won the game by 4 to 1.

The Young Men's Christian association won the afternoon game at Lisbon, Saturday, by a score of 16 to 5.

Hester, Gillespie, Twaddle and H. McCurran played with Lisbon Saturday and helped them defeat East Palestine by a score of 12 to 8.

The team booked to play at Wellsville, Saturday, failed to get together, and as a result Wellsville had no game.

The Tombstones have organized for the season, and would like to play a practice game with Dan Yant's clerks, in order that they may get in trim to meet some of the strong teams they have booked.

The Oakdale team defeated Rochester, Saturday, by a score of 9 to 8, in a 12-inning game, and the score published in the Sunday papers is incorrect.

T. R. Bradshaw Sold His Interest
in the Pottery.

W. A. CALHOUN BOUGHT IT

The Consideration Is Not Given Out—The
Purchaser Gets the Position of Secretary
and Treasurer of the Company—A New
Real Estate Dealer.

The interest of T. R. Bradshaw in the West End pottery has been purchased by W. A. Calhoun.

The deal has been pending for six weeks, and on last Thursday was consummated by Mr. Calhoun purchasing the one-fourth interest of the plant owned by Mr. Bradshaw, for a consideration not given.

The West End Pottery company was organized in 1892 with eight stockholders, three of whom have since been bought out by the company, and with the retirement of Mr. Bradshaw, leaves but four of the incorporators, William Burgess, C. C. Ashbaugh, G. W. Ashbaugh and Willis Cunningham, still stockholders in the pottery.

Many new additions have been added to the factory since the present management took hold of it, and now it is one of the best running potteries in the city.

Mr. Calhoun assumed the duties of secretary and treasurer today, the position held by Mr. Bradshaw, but will continue to transact his other business. Mr. Bradshaw will enter the real estate field, and give his entire attention to it.

THE OTTOMAN EMPIRE.

Silence of Desolation Brooding Over Regions Once Thickly Peopled.

In the beginning of the thirteenth century the annual revenue of the Byzantine empire amounted to \$130,000,000. Yet at that time not only was the eastern empire greatly impoverished by the ravages of the crusades, but the chief part of Asia Minor, with its flourishing cities, had been wrested from her by the arms of Islam. Today the revenue of the Ottoman empire is less than \$18,000,000. The silence of desolation now broods over vast regions which were once thickly peopled, well cultivated, abounding in flourishing cities and rejoyicing in an advanced civilization. Territories which formerly supported the capitals of ancient kingdoms—Pergamos, Sardis, Cyzicus, Prusium, Troy, Nicomedia and many more—have been reduced under Islam to cheerless solitudes, broken at intervals by Kurds or wandering Turcomans.

According to Ubicini, who spent 20 years in the civil administration of the porte, and wrote in defense of Turkey 40 years ago, the annual produce of corn in Asia Minor was then estimated at 25,000,000 Turkish kiles, which, he thinks, might be easily increased tenfold "if the great productiveness of the soil were turned to account. The same remark," he adds, "applies to all other productions which serve for local consumption or for exportation." But instead of increasing during the last 40 years there has been an accelerated decrease. The decay of every kind of manufacture has kept pace with the decline of agriculture. Diarbekir and Broussa, once so famous for their velvets, satins and silk stuffs, have been ruined. So have Aleppo and Bagdad. Turkey possesses copper mines which yield 30 per cent of ore, while the best British mines yield only about 10 per cent. And there is coal in abundance within easy access.—Quarterly Review.

A Variable Preference.

"What is your favorite color?" the young woman inquired.

"Under what circumstances?" Colonel Carter rejoined.

"Why—I should think one's favorite color would be the same at all times." "Decidedly not, miss. Decidedly not. Now, if I happen to be admiring a sunset, my favorite color is red or yellow or something of that sort. But if it should happen that I am engaged in a friendly game with a select circle of puffet gentlemen, in which pokah chips appear, I have a very strong prejudice in favor of blue."—Washington Star.

"What's In a Name?"

A sculptor of more humor than talent recently induced a prominent New York woman to allow him to make a bust of her. When it was nearing completion, he remarked during one of her sittings: "I am afraid this is not going to look very much like you, but never mind, we will call it 'Ruth' or 'St. Cecilia' and send it somewhere to take a prize."—New York Journal.

BAXTER BADLY BITTEN

While Picking Berries Near
Fredericktown.

A BIG COPPERHEAD DID IT

The Lad Was Without Shoes, and the Poison Almost Killed Him—His Leg Swelled to an Enormous Size, and Whisky Had Little Effect.

While picking berries near Fredericktown, Saturday afternoon, Chalmers, the 14-year-old son of John Baxter, College street, was bitten on the foot by one of the most poisonous of reptiles, the copperhead, and is now suffering terribly, and lying in a precarious condition in a farm house near Fredericktown, as a result of the poisonous bite.

Young Baxter, in company with a number of other lads about his own age, went to the woods to spend the day gathering berries. It was late in the afternoon when they, having obtained a goodly quantity of berries, retraced their steps, homeward bound. Coming to a bush heavily laden with Baxter, who was in his bare feet, stopped to pick a few berries, but almost immediately was heard to utter a cry of pain. His companions rushed to his side, and learned that he had been bitten on the foot by a copperhead snake that was seen rapidly wriggling away through the bushes. Baxter was conveyed to a house nearby, and Doctor Spahr, of Fredericktown, sent for. Meanwhile the lad's foot and leg had swollen to a frightful size, and its owner was in terrible agony. Whisky was administered in large quantities as an antidote, but apparently had little effect. The physician prescribed a treatment that reduced the swelling somewhat, and lessened the intense pain. Yesterday the lad was resting easier, and it is thought now that he will recover, although his condition at present is such that he cannot be brought home.

THE TELEPHONE HELPS ALONG

Private Advice Come From Pittsburgh, and They are Then Ready to Bet on the Winning Clubs—Big Odds are Constantly Being Offered—Sporting Notes.

The city is infested, like every other town, with a class of people who are a disgrace to all legitimate sportsmen. By this is meant the people who are found every evening around the principal sporting places, flashing their money and wanting to wager on certain baseball teams. These persons are in the habit of getting the scores before they are received by telegraph, and then they bet on a sure thing. They are known by the name of "skin game gamblers," and it is seldom that anyone who follows the national game day after day is foolish enough to wager any money after 6 o'clock in the evening; but very often people are caught willing to wager money on something a sure thing when the gamblers know they have their money won before the wager is laid. As an instance, about two weeks ago, one of the weakest teams in the west was playing one of the strongest eastern clubs. But a few minutes after 6 o'clock several people were willing to bet 20 to 5 that the western club had won. This scheme is being worked extensively, and if legitimate sportsmen don't want to get caught they will keep their money in their pockets after 6 o'clock.

THE BIG GAME.

It Will be Trimmed Out in a Parade and Concert.

The arrangements have been completed for the ball game to be played tomorrow for the benefit of Curt Welch. Everything possible has been done by Curt's friends to make it a success, and the novelty of seeing the old timers play ball will undoubtedly draw a large crowd to West End park. The lineup is as follows:

Crockett's.....	Eclipse.....	
W. Smith.....	catcher.....	Davis
Pickal.....	pitcher.....	Webber
Loom Kinsey.....	short.....	McNicol
Ed Smith.....	first.....	Fry
Chal Stewart.....	second.....	Lester
Baz Rowe.....	third.....	Godwin
Bob Ashbaugh.....	left.....	D. McCurran
Jack Rowe.....	middle.....	Lynch
Howorth.....	right.....	H. McCurran
George.....	sub.....	McCullough

Musical union, local No. 77, will furnish a full brass band free of charge, and a parade will be given at 2 o'clock by both teams in uniform, headed by the band. A concert will take place at the grounds. The game will be called at 3:45.

The Thompson hill club are anxious to play any 16 year old team in the city.

Carey's record in six games played last week is 4 runs, 6 hits, 60 putouts, 5 assists and no errors. Of the six hits three were two baggers and one a home run.

Mercer lost his game to Baltimore, Saturday, by hitting three men at a critical point. Aside from this he pitched good ball, allowing Baltimore but eight hits.

Jack Darrah's Wheeling team failed to hit "Johnny" Daniels hard Saturday, and as a result were beaten by New Castle.

Albright only gave the Frankforts 4 hits, and Georgetown won the game by 4 to 1.

The Young Men's Christian association won the afternoon game at Lisbon, Saturday, by a score of 16 to 5.

Hester, Gillespie, Twaddle and H. McCurran played with Lisbon Saturday and helped them defeat East Palestine by a score of 12 to 8.

The team booked to play at Wellsville, Saturday, failed to get together, and as a result Wellsville had no game.

The Tombstones have organized for the season, and would like to play a practice game with Dan Yant's clerks, in order that they may get in trim to meet some of the strong teams they have booked.

The Oakland team defeated Rochester, Saturday, by a score of 9 to 8, in a 12-inning game, and the score published in the Sunday papers is incorrect.

A WEST END CHANGE

T. R. Bradshaw Sold His Interest In the Pottery.

W. A. CALHOUN BOUGHT IT

The Consideration Is Not Given Out—The Purchaser Gets the Position of Secretary and Treasurer of the Company—A New Real Estate Dealer.

The interest of T. R. Bradshaw in the West End pottery has been purchased by W. A. Calhoun.

The deal has been pending for six weeks, and on last Thursday was consummated by Mr. Calhoun purchasing the one-fourth interest of the plant owned by Mr. Bradshaw, for a consideration not given.

The West End Pottery company was organized in 1892 with eight stockholders, three of whom have since been bought out by the company, and with the retirement of Mr. Bradshaw, leaves but four of the incorporators, William Burgess, C. C. Ashbaugh, G. W. Ashbaugh and Willis Canning, still stockholders in the pottery.

Many new additions have been added to the factory since the present management took hold of it, and now it is one of the best running potteries in the city.

Mr. Calhoun assumed the duties of secretary and treasurer today, the position held by Mr. Bradshaw, but will continue to transact his other business. Mr. Bradshaw will enter the real estate field, and give his entire attention to it.

THE OTTOMAN EMPIRE.

Silence of Desolation Brooding Over Regions Once Thickly Peopled.

In the beginning of the thirteenth century the annual revenue of the Byzantine empire amounted to \$130,000,000. Yet at that time not only was the eastern empire greatly impoverished by the ravages of the crusades, but the chief part of Asia Minor, with its flourishing cities, had been wrested from the arms of Islam. Today the revenue of the Ottoman empire is less than \$18,000,000. The silence of desolation now broods over vast regions which were once thickly peopled, well cultivated, abounding in flourishing cities and rejoicing in an advanced civilization. Territories which formerly supported the capitals of ancient kingdoms—Pergamos, Sardis, Cyzicus, Prusium, Troy, Nicomedia and many more—have been reduced under Islam to cheerless solitudes, broken at intervals by Kurds or wandering Turcomans.

According to Ubicini, who spent 20 years in the civil administration of the porte, and wrote in defense of Turkey 40 years ago, the annual produce of corn in Asia Minor was then estimated at 25,000,000 Turkish kiles, which, he thinks, might be easily increased tenfold "if the great productiveness of the soil were turned to account. The same remark," he adds, "applies to all other productions which serve for local consumption or for exportation." But instead of increasing during the last 40 years there has been an accelerated decrease. The decay of every kind of manufacture has kept pace with the decline of agriculture. Diarbekir and Broussa, once so famous for their velvets, satins and silk stuffs, have been ruined. So have Aleppo and Bagdad. Turkey abounds also in mineral wealth. It possesses copper mines which yield 30 per cent of ore, while the best British mines yield only about 10 per cent. And there is coal in abundance within easy access.—Quarterly Review.

A Variable Preference.

"What is your favorite color?" the young woman inquired.

"Under what circumstances?" Colonel Carter rejoined.

"Why—I should think one's favorite color would be the same at all times." "Decidedly not, miss. Decidedly not. Now, if I happen to be admiring a sunset, my favorite color is red and yellow and something of that sort. But if it should happen that I am engaged in a friendly game with a select circle of puffet gentlemen, in which pokah chips appear, I have a very strong prejudice in favor of blue."—Washington Star.

"What's In a Name?"

A sculptor of more humor than talent recently induced a prominent New York woman to allow him to make a bust of her. When it was nearing completion, he remarked during one of her sittings: "I am afraid this is not going to look very much like you, but never mind, we will call it 'Ruth' or 'St. Cecelia' and send it somewhere to take a prize."—New York Journal.

BAXTER BADLY BITTEN

While Picking Berries Near
Fredericktown.

A BIG COPPERHEAD DID IT

The Lad Was Without Shoes, and the Poison Almost Killed Him—His Leg Swelled to an Enormous Size, and Whisky Had Little Effect.

While picking berries near Fredericktown, Saturday afternoon, Chalmers, the 14-year-old son of John Baxter, College street, was bitten on the foot by one of the most poisonous of reptiles, the copperhead, and is now suffering terribly, and lying in a precarious condition in a farm house near Fredericktown, as a result of the poisonous bite.

Young Baxter, in company with a number of other lads about his own age, went to the woods to spend the day gathering berries. It was late in the afternoon when they, having obtained a goodly quantity of berries, retraced their steps, homeward bound. Coming to a bush heavily laden with Baxter, who was in his bare feet, stopped to pick a few berries, but almost immediately was heard to utter a cry of pain. His companions rushed to his side, and learned that he had been bitten on the foot by a copperhead snake that was seen rapidly wriggling away through the bushes. Baxter was conveyed to a house nearby, and Doctor Spahr, of Fredericktown, sent for. Meanwhile the lad's foot and leg had swollen to a frightful size, and its owner was in terrible agony. Whisky was administered in large quantities as an antidote, but apparently had little effect. The physician prescribed a treatment that reduced the swelling somewhat, and lessened the intense pain. Yesterday the lad was resting easier, and it is thought now that he will recover, although his condition at present is such that he cannot be brought home.
